

APPENDIX G - HEALTH & SAFETY POLICY

It is the Company's Policy to continuously promote a Safe & Healthy operating environment. Top Management continually demonstrates its commitment for the implementation of the Health & Safety policy, by establishing procedures for implementation and continual improvement of the Company's policies and also by communicating them to all personnel.

Company is committed to a Safe & Healthy working environment for all employees. Safety is not something that is separate from our business; it's very important to everything we do. We will not and cannot compromise on it. We believe every incident is preventable and this policy is designed to support the achievement of our goal of minimum incidents.

Therefore, the Company is committed to:

- Protect the health, safety and welfare of employees and other interested parties who may be affected by its activities.
- Complying with all relevant legal, customer and other interested party requirements.
- Recognizes and meets its responsibilities and duties as an employer to do all that is reasonably practicable to prevent accidents, injuries and occupational ill health.

The Company achieves these commitments through the following means:

- Provide and maintain safe working environments which are without risks to health and safety.
- Set standards that comply with the relevant statutory and industry specific requirements relating to health and safety with regard to the effect on employees, contractors and the public.
- Safeguard employees and others from foreseeable hazards connected with work activities, processes and working systems.
- Ensure that when new equipment, processes or premises are introduced, adequate guidance, instruction, training and supervision are provided for safe methods of work to be developed.
- Train all the employees to be competently aware of their own responsibilities in respect of relevant health and safety matters, ensuring they participate in the prevention of accidents and co-operate with measures taken to prevent diseases.
- Promote good health amongst the employees and be concerned with prevention of occupational and non-occupational disorders and diseases.
- Undertake inspections and review activities to ensure the Company's objectives for health and safety are being met.
- Set objectives and supporting action plan of work, focusing on achieving Company's commitments and eliminating or reducing the major hazards present. Set objectives are reviewed during Management Review Meetings.

Due to the significance of Health & Safety, H&S issues are not a sole responsibility of the Top Management, but all employees are engaged from top to bottom. More specific, junior employees participate in the below activities:

- SWOT Analysis
- Best Practices
- Risk Assessment per department
- Safety Moments

During each year, SWOT Analysis, Best Practices and RAM are updated by each department. All employees of each department are brainstorming and provide their feedback. The final inputs are finalized by the Manager of each respective department and then the final versions are presented to the CEO for his review and approval.
